PROJECTS

TaskBuddy (Thesis) | Next.js, React Native, Expo, TypeScript, Supabase, Remotion

- Led the frontend of a home-services marketplace where an ML model invites the best-matched providers.
- Built most of the mobile app: client and provider flows, payments, messages and verification.
- Built the marketing website, and produced a promo film and 17 narrated how-to videos.

ImagePrep | React, TypeScript, Vite | imageprep.pages.dev

- Open-source tool that resizes and converts images in batches, fully in the browser with no uploads.

PageKit | React, TypeScript, pdf-lib, Playwright | pagekit-bdy.pages.dev

- Open-source PDF organizer to combine, reorder, rotate and split pages locally, with undo and redo.
- Covered by end-to-end tests in real browsers.

Amara Bakery | Next.js, TypeScript, Tailwind CSS, GSAP | amara-bakery-iota.vercel.app

- Designed and built a bakery storefront with a full demo ordering flow and scroll-driven animations.

Personal Portfolio | Next.js, Tailwind CSS, Motion, Playwright | christian-esquillo-portfolio.vercel.app

- Designed and built from scratch, with live UI demos, unit and browser tests, and top Lighthouse scores.
